Specifications:

Hot Swap	2.5" Drive: 4
Standard Drive Bays	5.25" Drive: 1
Dimensions (W x H x D)	146.0 mm x 42.0 mm x 170 mm
Material	Plastic body with aluminum top cover
HDD Interface	SATA/SAS
Weight	0.2 kg
Cable	SATA Cable Included (4pcs)

Introduction:

The iStarUSA BPX-124-SA is a great recommendation for any media workstation. The unit has HDD/SSD hot-swap capabilities, which allow you to quickly swap HDD/SSDs without having to turn off the computer. The BPX-124-SA is an ideal solution to maximize hard drive storage with multiple 2.5" HDD/SSDs in a single 5.25" drive bay. The 40mm cooling fan provides excellent front-to-back cooling and airflow.

Order Information:

Model Number:	Color:	UPC Code:
BPX-124-SA	Black	846813036153

Hardware Information: Front View

Features:

• Supports 4x 2.5" SATA/SAS HDD/SSD in one 5.25" drive bay.
• Compact multi-bay design to maximize the space in your workstation.
• Aluminum material for maximum durability and excellent heat dissipation.
• Stylish design with scratch-resistant piano finish UV coating.
• Supports SATA/SAS 6.0 Gbps speed.
• Supports HDD/SSD thickness from 7 to 12.5mm.
• Integrated high-speed cooling fan can effectively reduce HDD/SSD temperature.

D1
Latch: Provides a convenient way to secure your hard disk.
D2
HDD access LED: Blinking red illumination for HDD access.
*Note: LED indicator might not work with some SSDs.
D3
HDD power LED: Solid blue illumination for HDD power on.
Hardware Information: Rear View

D4
4-pin Molex D-type power connector
D5
40mm cooling fan (4000rpm)
D6
4x SATA 7-pin data connectors

Hard Drive Installation

1) Press the latch left to unlock the tray, then hold the latch to pull out the HDD tray.

2) Place HDD/SSD onto the tray, and use M3 countersink screws to secure the HDD/SSD.

3) Insert the trays back to the enclosure and close the latch to secure the trays.

BPX-124-SA Installation

1) Install BPX-124-SA to a computer with one 5.25" drive bay available

2) Connect SATA 7-pin data cables. one end to the BPX-525-SA and the other end to a motherboard/controller

3) Connect a 4-pin Molex connector from a power supply to the BPX-124-SA.

Included Accessories

• Screws   • 4 SATA cables
